JMTC Ombudsman	(910) 376-1419 or jmtcombudsman2011@gmail.com

JMTC Member/Family Accountability

One of our most important responsibilities before, during and after a severe weather event is accounting for all of our extended JMTC family. This information will help us to stay in contact with you during any weather event, keep you up to date with relevant information, and ensure that you have every opportunity to reach us during a storm should you require assistance.

Set-up and Verify your Emergency Notification System (ENS) Account

All JMTC members should have an account for the ENS system. ENS is a web-based, TEXT and E-MAIL notification system which JMTC will use as our primary means of contacting your family before, during and after a severe weather event, or notify your family of official Coast Guard Evacuation instructions or information. Many notifications are issued on a COUNTY basis. Please ensure that COUNTY information is correct for both "Home" and "Planned Evacuation Site" locations. **If your Data Sheet does not show an "ENS User Name," contact JMTC Admin to set up your account.**

Provide Accountability Information When Requested

At certain times before, during and after a hurricane or evacuation, JMTC TSC will request "Accountability" information from you. Please respond to these requests as soon as possible with the following information:

- Status and contact information
- Current location (and intended destination if you are in-transit)
- Any need for assistance

Should you be unable to reach JMTC by any method, you may provide your status information to the Coast Guard Command Center at (202) 372-2404. Please use this only as a "last resort."

In the event of a Mandatory Evacuation

Enclosure (6) provides some information on hotels in the Raleigh / Cary NC area. Raleigh is the designated evacuation site for JMTC dependents.
